HIGH PERFORMANCE STEEL

ULTRA HIGH STRENGTH SHEET
100 KSI / 700 MPA SHEET STEEL COMPARISON

Melted and Manufactured in the USA

Constructed with T-1 100K PSI yield strength Steel. The High Tensile Steel ensures the designed camber is retained, and allows for a longer product service life.

WHEEL OPTIONS

All Globe trailers come with standard HUB piloted disc wheels. Wheels are also available in all Aluminum or Outer Aluminum.

TIE DOWNS

D-rings on each side of the deck make it easier to secure loads to the trailer.

LANDING GEAR

2 speed Landing Gear, allows for 160,000 lbs static load.

LIGHTING SYSTEM

All Lighting is LED and mounted in rubber grommets to DOT standards.

COLOR OPTIONS

Globe Trailers can powder coat to the color of your choice.

MOUNTED SPARE TIRE

Optional spare tire that mounts securely at the side of the drawbar

HYDRAULIC RAMPS

Hydraulic ramp upgrade available for easier use.

POWER PACK

Power pack option for rear hydraulic ramps.

SUSPENSION

Heavy Duty tandem suspension.

TOOL BOX

All Globe Trailers are 100% powder coat finished. The entire process takes place at Globe's manufacturing facility. This eliminates the possibility of contamination occurring in transit between process phases. The process starts with sandblasting the trailer to near white, preheating the trailer steel in a dedicated, gas fired oven to optimum bonding temperature and applying an electrostatically charged zinc rich primer. The trailer then goes back in the oven to allow the primer to bond. After the primer has bonded, a top coat chosen from one of Globe Trailers' 188 color options is applied before once more going back in the oven to cure. The result is a durable, easily cleaned finish that protects the trailer from corrosion and ensures a long service life.
