

Trailer Model: GTBN553-52-24-HGG

Weigh Apx. _____ lbs

Overall Length	Overall Width	Gooseneck Length	Lower Deck Length	Lower Deck Height	Rear Deck Length	Rear Deck Height	Ground Clearance
65' 5"	8' 6"	12' 11"	24'	22" loaded	15' 8"	40 1/8"	6"

Main Deck	
Main Beam	16" T-1 Steel.
Centers	40"
Side Rails	16" T-1 Steel
Crossmembers	10" & 4"
Spacing	12"
Outriggers	Full Height Removable
# Of D-Rings	11 Each Side
Front Ramps	Steel, 18" x 31" Standard
Concentrated Load	110,000 lbs in 12'
Rear Deck	
Riser	35° Rear Bridge Ramp
Rear Well Style	Boom & Bucket Well
Rear Deck Beam	16.5" T-1 Steel Std.
# of D-Rings	2 Each Side
Set up for Hydraulic Powered Flip	
Decking/Flooring	
Main Decking	1.75" Apitong Open Center
Wheel Covers	Open-Bloster Style
Well Decking	Open
Electrical	
Lights	LED Plus 2 - Rear Strobes
Connector	7 Way Connector
Hydraulics	
Wet Line Kit - Wing Nut Connection	
Tires & Rims	
Tires	275/70R x 22.5 "H"
Rims	8.25 x 22.5 Hub Piloted All Aluminum

Axles, Suspension, & Running Gear	
# of Axles	3 + 1
Axle Spacing	60"
Axle Capacity	25,000lbs
Brakes	1twt Drums on each axle
ABS	2S1M
Axle 1	Fixed Type 30/30 Non-ABS
Axle 2	Fixed Type 30/30 ABS
Axle 3	Super Lift Type 30 Non-ABS
Air Ride Suspension - 25K	
Auto Dump	
Gooseneck	
King Pin Style	Fixed
King Pin Setting	16"
Swing Clearance	110"
5th Wheel Height	50"
King Pin	2"
Ride Height	5-Position
Finish	
Sandblast & Powder Coat	
Mud Flaps & Reflective Tape	
Flag Holders	

Dealer:

WARRANTY

Globe Trailer's 10 year structural warranty on all lowboys is the best in the industry. Most competitors offer only a 5 year warranty. This shows how committed Globe Trailers is to its customers.

DECKING OPTIONS

Oak: Standard.
Apitong: Best strength to weight ratios of natural woods.
Rumber: Composite which is impervious to fluids, mud, oil and UV rays.

AIR BAGS

30K pound rated large diameter air bags are standard. This allows for lower operating pressure and higher capacity when needed.

22" DECK HEIGHT

With a standard deck height of 22", Globe Trailers have lower overall height, which allows taller loads to be hauled.

STEMCO WHEEL WARRANTY

5 year wheel end warranty. Guardian wheel seals, Pro-Torq spindle nuts and Sentinel hub caps.

MULTI POSITION RIDE HEIGHT

Multi Position Ride Height options. Makes adjustments for various 5th wheel heights easy and allows for larger ground clearance or lower deck height.

LIGHTING SYSTEM

All Lighting is LED and mounted in rubber grommets to DOT standards.

STINGER

The Stinger Assembly increases the wheel base of the trailer when attached to the rear trailer frame. The Stinger Assembly is used for heavy hauling situations where regulations and specific axle loads must be adhered.

COLOR OPTIONS

Globe Trailers can powder coat to the color of your choice.

COLOR CODED HOSES

Color coded air hoses allow for easy trouble shooting and maintenance.

STANDARD FRONT RAMPS

Standard Steel Front ramps, for ease of front loading.

HEAVY DUTY FRONT OUTRIGGERS

Globe Trailers fabricated heavy duty pullout front outriggers provide added strength which is needed to accommodate the initial force when loading equipment. The outrigger is held in position with a spring loaded locking pin.

V-STYLE GUIDE

V-Style guide with front tapered beams helps position the gooseneck locking pin, which makes hooking up to a Globe Trailer fast and easy. The locking pin guide rim helps prevent the gooseneck locking pin from coming loose in transit.

CENTRALLY LOCATED FITTINGS

Air, electric and hydraulic (when applicable) fittings are all centrally located at the base of the gooseneck inside a bolster. This makes for quick and easy connect and disconnect. The fittings are protected from possible contact with equipment being loaded or unloaded.

ADDED SECURITY

Globe Trailers air lock with safety bar and spring extended pin ensures that the gooseneck locking pin will remain secured even if air pressure is lost.

HIGH QUALITY STEEL

Constructed with T-1 100K PSI yield strength Steel. The High Tensile Steel ensures the designed camber is retained, and allows for a longer product service life.

12" CROSS MEMBER SPACING

Standard 12" stubbed cross member spacing produces added strength to the trailer and also less stress on the decking, leading to a longer life of the decking material.

POLYURETHANE VS RUBBER BUSHING

Reduced Maintenance	Increased Maintenance
Increased Trailer Lifetime	Needs Replacement
Increased Trailer Performance	Reduces Trailer Performance
Weather Resistant	Damaged from Weather

All Globe Trailers are 100% powder coat finished. The entire process takes place at Globe's manufacturing facility. This eliminates the possibility of contamination occurring in transit between process phases. The process starts with sandblasting the trailer to near white, preheating the trailer steel in a dedicated, gas fired oven to optimum bonding temperature and applying an electrostatically charged zinc rich primer. The trailer then goes back in the oven to allow the primer to bond. After the primer has bonded, a top coat chosen from one of Globe Trailers' 188 color options is applied before once more going back in the oven to cure. The result is a durable, easily cleaned finish that protects the trailer from corrosion and ensures a long service life.
